

Name	Tobacco Cessation
Date of Origin	8/18/2020
Current Effective Date	08/17/2022
Scheduled Review Date	08/17/2023

1. Policy

Capitol Dental Care (CDC) believes in the importance of making tobacco cessation services available to its membership within its purview of business operations and in accordance with the related, covered OHP benefits.

CDC recognizes that although tobacco dependence diagnosis and subsequent cessation efforts often occur with physical healthcare providers, CDC is often on the front lines of identifying tobacco related health issues, as a dental care organization.

CDC’s policy is to provide culturally responsive and linguistically appropriate tobacco dependence counseling services under its applicable service code—D1320. This service will be provided consistent with recommendations listed in the tobacco cessation standards located at:

https://www.oregon.gov/oha/PH/PREVENTIONWELLNESS/TOBACCO PREVENTION/Documents/tob_cessation_coverage_standards.pdf

CDC will make tobacco counseling services available to all members who use tobacco products including smokeless, dissolvable, electronic vapor, pipes and cigars.

2. Procedure and Monitoring

Dental providers in CDC’s provider network may provide tobacco counseling to CDC members who are deemed in need of such services. Tobacco counseling is billed under the D1320 code.

CDC will monitor the use of this code in its Quality Improvement Committee meetings as part of its QI Dashboard analysis tool. This practice will help inform CDC initiatives relating to tobacco cessation, if needed, and aid in any other related efforts.

CDC will collaborate with its CCO partners in sharing this information as is helpful, including in order to assist in care coordination efforts between physical health plans and the dental plan.

3. Revision Activity

Modification Date	Change or Revision	Effective Date
09/13/2021	Review	09/13/2021

4. Affected Departments

- All CDC Administrative Staff
- All CDC Providers
